M Ananthu

Front-end Developer

Enthusiastic front-end developer with a strong foundation in creating responsive, visually appealing web applications. Skilled in HTML, CSS, JavaScript, and modern frameworks like React. I have a keen eye for detail and a passion for crafting intuitive user interfaces that enhance the user experience. Constantly seeking to learn new technologies and improve my skill set, I thrive in collaborative environments and enjoy solving complex problems through innovative solutions.

WORK EXPERIENCE

Front-end Developer
Acmeflare Technologies

04/2024 - Present   *Trivandrum*

Achievements/Tasks

- **Developed Responsive Web Applications:** Built and maintained responsive web applications using HTML, CSS, and JavaScript frameworks .
- **Optimized User Interfaces:** Enhanced user interfaces with a focus on performance, accessibility, and cross-browser compatibility.
- **Collaborated with Design Teams:** Worked closely with UI/UX designers to translate design prototypes into functional, polished web pages.
- **Utilized Modern Front-End Technologies:** Employed tools such as React, Next.js, and Tailwind CSS to build dynamic and efficient front-end solutions.
- **Version Control and Agile Methodologies:** Collaborated with team members using Git for version control and participated in Agile practices for project management.

Mern stack intern
Luminar Technolab

07/2023 - 02/2024   *kochi*

Achievements/Tasks

- Assisted in the development of front-end components for various projects.
- Gained hands-on experience with React and JavaScript, contributing to the improvement of existing codebases.
- Worked closely with senior developers to learn best practices in coding, debugging, and testing.
- Participated in daily stand-ups and code reviews as part of the Agile workflow.

EDUCATION

kerala university

SKILLS

Next Js   Angular   React   HTML   CSS

Javascript   Bootstrap   Tailwind   Node Js

Express   Mongodb   Material UI   ReduxToolkit

Git

PERSONAL PROJECTS

ProsperPitch (01/2024 - 02/2024)
- Implemented user authentication using JWT for secure access.
- Designed and implemented a responsive user interface using React, HTML, Bootstrap, and inline CSS.
- Integrated Multer for efficient file uploads and Moment.js for handling date and time.
- Key features include profile editing, post creation, and direct email redirection for communication.

AgeSpark (11/2023 - 11/2023)
- Developed a responsive web application using React, HTML, CSS, and React Bootstrap to calculate and display the user's exact age based on their date of birth.
- Leveraged React's component-based architecture to create a modular and scalable application, enhancing code organization and maintainability.
- Implemented personalized age-related messages to engage users and provide a customized interaction based on their calculated age.

SkySync (08/2023 - 08/2023)
- Created a Weather Visualization Web App delivering real-time updates for any city's weather .
- Integrated Open Weather API for real-time weather data.
- Features dynamic backgrounds corresponding to current weather conditions and a smooth day-night theme transition.
- Developed using HTML, CSS, and JavaScript. Achieved responsive design through Bootstrap, ensuring a seamless user experience.
